COMPANY HISTORY

METSCCO Heavy Steel Industries Co. Ltd., established in 1979, is a professionally managed company specializing in Engineering, Design, Supply, Fabrication, Installation, Testing, Painting, and Commissioning of a diverse range of industrial infrastructure.

OUR EXPERTISE ENCOMPASSES:

- Welded Storage Tanks featuring CS, Fixed & Floating Roof, and Aluminum Dome Roof configurations for storing fuel, water, chemicals, and thermal energy, adhering to API 650/620 & AWWA-D100 standards.
- Pressure Vessels holding U & R Stamps.
- Shaft Kilns & Stacks.
- Silos & Hoppers.
- Heavy Steel Structures and Pipe Racks.
- Comprehensive construction services for refineries and power plants, encompassing civil, piping, electrical, and instrumentation works

VISION & MISSION STATEMENT

Established in 1979, Metscco Contracting Company has emerged as a trusted leader in the construction industry across the Kingdom of Saudi Arabia. Renowned for its outstanding performance in the water, oil & gas, power generation, petrochemical, energy, and manufacturing sectors, Metscco specializes in delivering tailored solutions for medium and large-scale industrial projects. The company offers comprehensive services, including engineering design, EPC (Engineering, Procurement, and Construction), project management, procurement, and general contracting.

Metscco's expertise spans civil and structural works, mechanical and equipment erection, piping fabrication and installation, electrical and instrumentation systems, as well as coating and insulation services. Additionally, Metscco provides turnaround/shutdown and T&I (Testing and Inspection) services to ensure operational excellence. Equipped with a skilled workforce of craftsmen and engineers, a diverse fleet of construction equipment, and a state-of-the-art fabrication and assembly facility in Dammam for pressure piping and alloy piping production, Metscco is committed to meeting client-specific requirements with precision and reliability.

VISION & MISSION STATEMENT

VISION

To become the leading one-stop provider of Engineering, Procurement, Construction, Commissioning, Start-Up, and Maintenance solutions for process industries, including civil, structural, mechanical, piping, electrical, instrumentation, control, automation, and telecommunication systems, within the markets we serve.

MISSION

Our mission is to deliver world-class services aligned with international best practices, offering timely, cost-effective, and responsible solutions that create value for our clients, customers, and partners. Recognizing that our employees are the cornerstone of our success, we are dedicated to attracting, developing, and retaining skilled professionals who drive the achievement of our organizational goals.

STRATEGIC SOLUTIONS AND CAPABILITIES

- Metscoo has specialized in midstream and downstream operations in the oil and gas industry over the years, offering full-service solutions ranging from conceptual design (including feasibility studies, technology selection, process design, equipment specification, cost estimation, project scheduling, and risk management) to commissioning and project startup.
- Metscoo understands the crucial role of having an adequate number of heavy equipment in pipeline and heavy industry projects. Therefore, Metscoo has consistently expanded its equipment fleet over the years.
- Metscoo provides a comprehensive range of civil works services, starting from conceptual design and continuing through project completion
- Metscoo prioritizes safety culture and environmental stewardship in all its operations. Our commitment to safety includes rigorous training programs, implementation of best practices, and adherence to regulatory standards to ensure the well-being of our workforce and the protection of the environment. We integrate environmental considerations into every stage of our projects, from initial planning to execution, to minimize our ecological footprint and contribute to sustainable development.

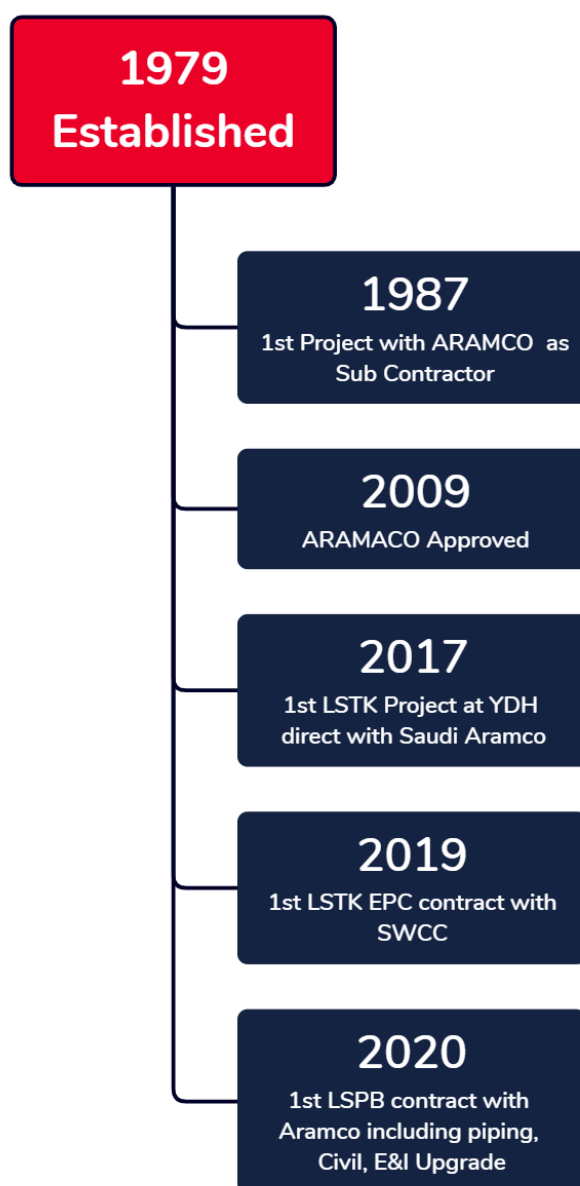

ENGINEERING

METSCOO responsive capabilities have allowed us to provide our customers with effective problem-solving, cost-efficient engineering, and design solutions that adhere to internationally recognized codes.

TIMELINE OF COMPANY

Our major milestones and key achievements.

SERVICES

Metscco has the capability to execute works for oil Gas Industry and infrastructure works. The services that we can offer are as follows:-

- Detailed engineering and design services
- Basic and detailed engineering
- Project management & Construction Management
- Perform Third Party studies, HAZOP, constructability study, BRA & others.
- SIL Assessment and SIL validation
- Preparation for Bid packages for EPC tenders, technical and commercial bid.
- Design verification & adaptation.
- Cost estimation and project controls/planning.
- MR preparation
- NMR Reviews & Approvals
- Method statement, JSA and execution plants preparation
- Bidding and Tendering-LSTK, LSPB
- Techno commercial Risk Analysis
- Safety System design and evaluation.
- Instrumentation & control strategies and philosophies
- Electrical and power system studies-Load Flow, Short Circuit & Current limiter sizing.
- E&I Construction Management and construction Supervision
- Technical Training.

SERVICES

PRODUCT SERVICES

Metscco offers a wide range of services to meet various business demands, including design, fabrication, construction, commissioning/start-up, and maintenance for the oil and gas industry, And heavy industries.

ENGINEERING

Providing engineering services for concept/preFEED, FEED, and detailed design in all disciplines within the oil and gas and heavy industries businesses.

SERVICES

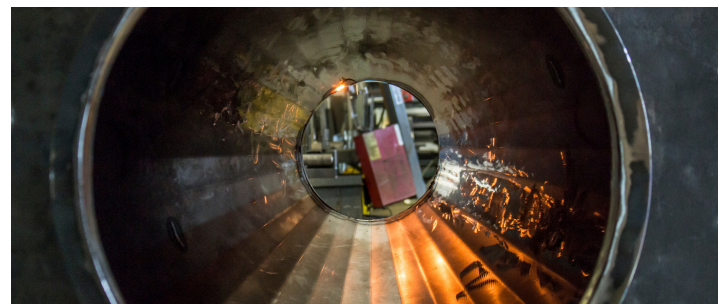

CONSTRUCTION

We specialize in delivering comprehensive construction services encompassing civil, mechanical, piping, pipeline, and IE disciplines for the oil and gas, water sector as well as heavy industries sectors.

FABRICATION

At Metscoo, we have two fabrication shops located in Riyadh and Jeddah City. Our fabrication factories are equipped with high standard equipment to meet market demands. In our factories, we provide services for the fabrication of pressure vessels, storage tanks, steel structures, and piping works.

SERVICES

PROCUREMENT

At METSCOO, we understand that EPC procurement is a complex and challenging process that demands a strategic approach and meticulous risk management. Our team of experienced supply chain professionals is dedicated to ensuring the success of your project by effectively navigating the intricacies of the procurement stage.

SERVICES

PIPING WORKS

Metscco provides cost effective solutions for its customers requirement through its expert project management team and technical support group having vast experience in piping works in the fields of petrochemicals & refineries, power and desalination, industrial and manufacturing industries, to the best quality and safety practices within the given schedule.

Projects are supported with its in-house pipe spool fabrication facility (either in its base workshop or site fabrication facility) having a monthly production capacity up to 5,000 dia-inch per single shift. Capability extends to fabrication of carbon steel, stainless steel, alloy and other exotic materials. We specialize in piping fabrication, erection, hydro testing, pre-commissioning and commissioning activities.

WELDING WORKS

The company is a recipient of numerous citations on welding. We have achieved a 98% weld acceptance rate from one of its clients, in many completed projects. We have certified Welders and can develop WPS for all categories of CS, SS, Alloy steel materials.

SERVICES

MECHANICAL / PIPING SERVICES

- Erection of equipment's such as but not limited to vessels, columns, exchangers, compressors, turbines, pumps & other equipment.
- Skid assembly & erection of skids/vessels
- Heavy lifting and transportation
- Tanks fabrication and erection works
- Process piping, fire water piping & utility piping
- Pipeline & onshore plot piping
- Spool fabrication including jacketed piping
- Industrial structures & pipe racks / platforms
- Plant turn-around & Revamping works
- Structure Erection & bolt torquing
- Hydrostatic Pressure testing Piping & Valves.

SERVICES

ELECTRICAL AND INSTRUMENTATION WORKS

Metscco strength is also in the area of electrical and instrumentation works. It also leads the competing in this area of construction. We offer clients in various industries with effective and efficient project management, ensuring that its services are within budget, on time completion and in compliance with industry standards.

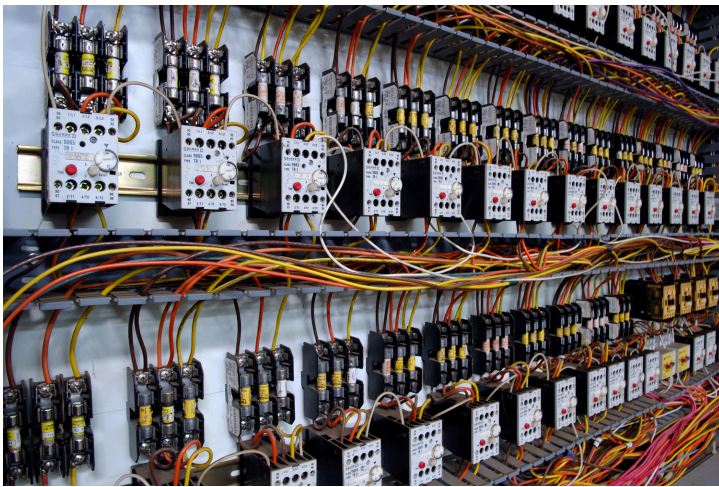

We have the expertise working for grass roots and live/operational plants in refineries and other industries offering solutions for high/medium/low voltages as well as control and instrumentation cabling installations. Grounding, termination, functional tests for various electrical and instrumentations equipment.

SERVICES

ELECTRICAL AND INSTRUMENTATION WORKS

We have competent and experienced personnel who are able to undertake a full range of construction requirements

- MV Switchgear and MCC installation.
- Electrical power distribution/substation installations on units or turnkey basis.
- Electrical power systems (Transformers, ATS, Generators, Rectifiers, Power panels, UPS, Power Cables, Etc.) Supply, installation and testing.
- Electrical power line towers procurement, foundation construction, erection, painting, installation of power lines, connections and associated accessories.
- Solar power systems (solar panels and batteries) supply and installation.
- DCS/ESD/VMS System installation.
- CCS & Other Process system installation
- All types of Control valves.

SERVICES

TELECOM, FIRE & SECURITY SYSEM WORKS

Metscco strength is also in the area of Telecom and Security & Fire System works. It also leads the competition in these areas of construction

TELECOM

Inside Plant (ISP) and structured cabling (SCS) communication systems (Equipment Racks, Cabinets, Cable Runways, Structured Cabling for Data/Telephone outlets).

Outside plant systems (OSP) including supply, installation, splicing and Testing of Fiber Optic and Copper Cables and construction of Communication Manholes and Conduit/Duct bank systems. Piping, operation & maintenance of various communication facilities and systems.

FIRE SYSTEM

- Fire alarm, detection systems
- Intelligent aspirating smoke detection systems
- Clean agent (FM200-And Novec 1230) Fire Suppression Systems
- High / Low pressure Co2 Fire Suppression Systems
- Automatic Sprinkler Systems

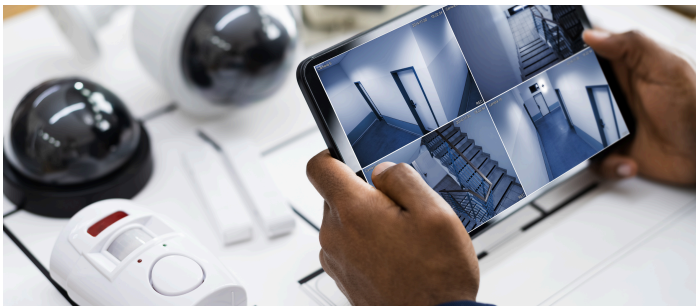

SERVICES

SECURITY SYSTEM

Metscco's strength is also in the field of communications, security and fire systems, by contracting with distinguished companies in this field if necessary, and it has many experiences, and it is a pioneer in the competition in these construction fields.

- Access control and ID management systems
- Smart Access Control Reader
- Intrusion detection and assessment systems (IDAS)
- Computerized monitoring systems
- Perimeter intrusion detection systems
- Closed circuit television (CCTV) systems
- Video Analytics Systems
- Road Barriers, Blockers, Tire Killers, And Sliding Gates
- Walkthrough Metal Detectors
- Turnstile/automatic Number plate recognition (ANPR)

SERVICES

FLEXIBLE SOLUTIONS

TAILORMADE SOLUTION

- Wide range of multinational and multidiscipline workforce to attain the clients' specific requirements.
- Specialized persons for unique requirements.
- International network covering most major countries.

GLOBAL BEST PRACTICES

- Technology based solutions to increase effectiveness.
- Delivering the services to the client as per the schedule.
- Experienced staff capable of giving industry best practice and fit-fr purpose solution.
- Using of professionals who understand the complete cycle of oil and gas business from concept to commissioning.
- Quality training to the staff's ad make them to work towards continuous services.

SERVICES

PROFESSIONAL GROWTH

“The key to our underlying success is found in the creativity, professionalism and diligence of the people who work for us. Maintaining an environment where those people feel nurtured and challenged is of paramount importance to us”

We put a great deal of effort into helping our staff develop all of their skillsets. During the course of the years, our team of engineers and managers participated in numerous advanced training courses, certification courses and leading industry exhibitions.

SERVICES

OUR PARTNERS / SUPPLIERS

Throughout 20 years of history, we have strived to build a reputation for excellence, quality construction and technological innovation. Metscco competitive differentiation and success is built on long-standing partnerships, associations with locally renowned manufactures and suppliers and its adherence to the highest levels of professionalism and operating business.

Nowadays, this relationship continues to evolve to ensure that we provide our clients with a robust portfolio of leading-edge systems engineering and construction.

QUALITY STATEMENT

We consider quality management and associated targets and objectives as a core value and it is part of every function. Our integrated management system (IMS covering quality, Health, Safety and Environment (OHSE), based on ISO 9001:2015 for quality management, OHSAS 45001:2008 for occupational Health and safety and ISO 14001:2015 for Environmental Management evidence of our focus and commitment.

We practice flexibility to adopt and adhere to any specific requirements from our customers based on their proprietary QHSE practices within the framework of our own QHSE management system. Our employees are well trained on all aspects of QHSE activities as per IMS and we ensure our subcontractors/suppliers have proven QHSE standards and procedures, as part of their qualification process.

With an efficient management team and policies we are able to deploy continuous improvement with minimal cost. Our periodical internal and external audits ensure compliance to the established QHSE procedures and standards.

Our board meeting performance reviews and team briefings emphasize on Total Quality Management and hence continuous improvement is embedded in the core work culture.

SAFETY STATEMENT

Metscco is committed to the protection of all its employees, resources, properties and interested parties against injury, ill health and financial loss in a manner that prevents environmental pollution. Metscco shall focus on continual improvement in Health, Safety & Environmental Management and performance to minimize occupational health & safety risks and environmental impacts related to its construction business.

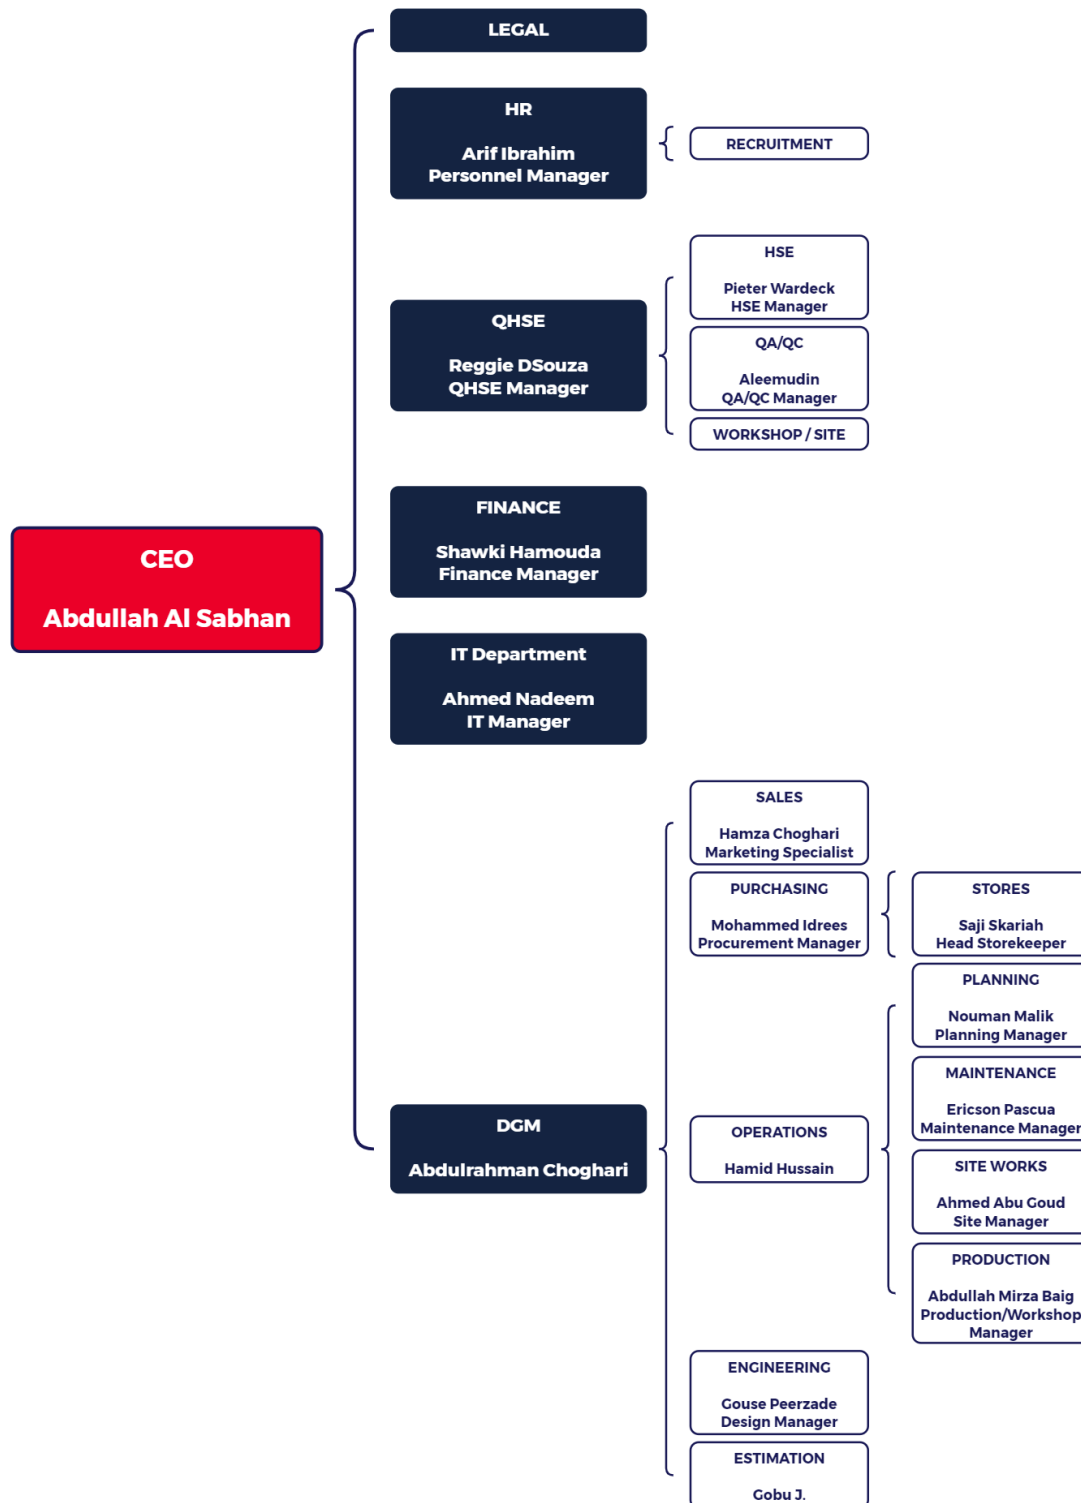

In fulfilling this commitment, Metscco shall provide improvement and maintain a safe and healthful working condition, maintain a vigorous incident and pollution prevention program and ensure that our activities pose no threat to the Health, Safety and Environment of those who may be affected directly or indirectly.

Line Managers are responsible in protecting employees health and safety including the environment, while it will be the duty of all employees to work safely in line with Metscco policies and standards.

The slogan SAFETY FIRST will be communicated to all persons working under the control of Metscco with the intent that they are mad aware of their individual Health, Safety and Environmental obligations.
